

## VersaLamp

The VersaLamp 482DMX-BLB LED lamp provides a unique dual purpose lamp for all types of lighting applications. The lamp is a T12, 48" length lamp with two rows of true white 4000° color temperature LEDs for all ambient lighting applications and two rows of ultraviolet 405 nanometer wave length LEDs for deep ultraviolet lighting effects. DMX digital lighting control is included for dimming and to easily switch lighting environments. The long-life LED lamp sources are energy efficient, maintenance free, simple installation and operation. Perfect for new applications with our Versa line of luminaires or most brands of similar luminaires. Great for retrofit applications when used with our retrofit kit sold separately. This is a line voltage lamp with an internal driver and processor.

### Specifications:

- LEDs: 112-White (W) & 112-Ultraviolet (UV)
- White LEDs Color Temperature: 4000°K
- White LEDs Lumen Output: 2200L
- Ultraviolet LEDs Wavelength: 405nm
- Pattern: 180 Degrees
- Lamp Size: T12
- Lamp Length: 48" Length/1200mm
- Driver: Internal/Line voltage (UL Type B)
- Operating Modes:
  - 1) Stand alone with all white LEDs at full.
  - 2) White & ultraviolet lighting with DMX control
  - 3) Digital dimming & control of all LED nodes
- Control:
  - Control: DMX
  - Data Connections: Three pin XLR male (input) / female (output)
  - Addressing: Lamps are individually DMX addressable
- Mounting & Power Connection: Twist-in bi-pin (G13) lamp sockets. Power Requirement: Line voltage AC 100-277v 50/60Hz
- Power Consumption: Maximum 32 watts @ 120v with all white & ultraviolet LEDs at full. White or ultraviolet at full only 16 watts @ 120v.
- Approximate Lamp Life: 50,000 Hours
- Luminaire Types: LED Luminaires wired for line voltage or for retrofit applications with VersaLamp Retrofit Kit (sold separately).
- Usage: Indoor and outdoor with suitable IP rated luminaire.
- Warranty: Two years
- Part Number: VersaLamp 482DMX-BLB-G5
- Shipping Weight: 1.3 lb.

Does NOT Include: DMX controller, DMX addresser or low voltage control cables.

### Best Practices:

VersaLamp 482DMX-BLB is great anywhere requiring white & ultraviolet lighting. Perfect for retrofit & new lamp applications. Replaces inefficient fluorescent lamps & electronic or magnetic ballast generally used in these types of applications.

### Applications:

- Themed Environments
- Family Entertainment Centers
- Amusement Parks
- Trampoline Parks
- Live Productions
- Halloween Exhibits
- Bowling Centers
- Skating Facilities
- Night clubs
- Museums
- Theatre
- Retail
