

Versa Pin Deck Lighting System

Series-6

RGBW & Ultra-Violet

Versa Pin Deck Lighting System has the most colors and effects of any pin deck lighting system available. It is the only system that provides true white and true high output ultraviolet LEDs plus full color RGB (red, green & blue) LED lighting from the same pin deck. The system utilizes two Patent Pending VersaLamp* LED lamps with powerful lighting control. Bright LED lamps create billions of color combinations and limitless lighting effects. Colored effects and patterns can be specific to a single lane or any combination of lanes. All systems are custom programmed to maximize the design specifications of the installation. Perfect for new and retrofit applications. Installation is a snap with minimal expertise needed. Works great with all scoring systems and any number of lanes. Seamless integration with Versa Cap and VersaLamp lighting systems.

Fixture Specifications:

- Dual lamp pin deck fixtures.
- Fixtures are angled to properly focus of the lighting on the pins.
- Pin deck fixtures for Brunswick (48" W) & AMF (36" w) pinsetters
- Pin deck fixtures are line voltage 100-277v.
- Power control of the pin decks are from the scoring system.
- Two year limited warranty.

Lamp Specifications:

- LEDs: RGBW & UV LEDs (56-White (W), 56-Tri-Color Red, Green, Blue (RGB) & 56-Ultraviolet (UV)
- White LEDs Color Temperature: 4000°K
- Ultraviolet LEDs Wavelength: 420nm
- Lamp Length: 36" or 48" length fixtures available to fit all pinsetters
- Output: 180 Degrees
- Approximate Lamp Life: 50,000 Hours
- Operating Modes:
 - Standalone without control only white LEDs.
 - DMX digital dimming & control of all LEDs

Chroma Control Options:

Chroma 1SD Key Pad

Includes eight shows with up to four thousands steps. It is easy to operate, affordable and powerful.

Chroma Tablet

Provides lighting control through a simple to use wireless Apple iPad. Hundreds of lights shows can be created.

Chroma PC

Utilizes industry standard Madrix lighting control software and a powerfully laptop PC. An unlimited number of shows can be created.
